The CBR Screen Fund is managed by Screen Canberra, under agreement with the Australian Capital Territory (ACT) Government to foster a vibrant ACT screen industry.

Established in 2018, the \$5 million Fund will support projects, practitioners and businesses over a 7-year period.

Screen Canberra will fund projects and practitioners accordingly within its strategic remit to:

- uphold the quality and quantity of screen productions in the ACT
- foster projects with creative merit and market engagement
- contribute to the growth and sustainability of the local screen industry
- champion diversity
- contribute to the profile of the ACT region nationally and internationally

The Fund is multipurpose and strategic, enabling Screen Canberra to remain responsive to continuing change and innovation.

Screen Canberra encourages diverse screen professionals including First Nations peoples, people with a disability, identifying as GLBTQI, and from culturally and linguistically diverse backgrounds, to apply.

About the CBR Screen Development Loan Program

The CBR Screen Development Loan Program was established in 2020 under the CBR Screen Fund to provide specific support to projects in late stage development.

Development funding is in the form of a loan (not a grant) and is intended by Screen Canberra to be one part of a project's overall finance strategy, supporting the project's progress successfully through development and into production.

What are we looking for?

We are looking for screen project applications that:

- are creatively compelling and have well-defined development goals
- can demonstrate a capacity to reach audiences
- show market engagement and are commercially feasible
- have a Key Creative and/or Producer attached with a significant track record, or who shows potential

- have “chain of title” in place, and
- can provide employment and development opportunities for local practitioners and intend to go into production in the ACT.

Eligible projects

The CBR Screen Development Loan will fund projects that are in development and strongly moving towards production and these can include:

- feature films
- adult and children’s television dramas and narrative comedy, documentary and animation, including series, miniseries, web series and telemovies, and
- creative interactive screen entertainment/cross platform projects.

Projects at an earlier stage of development may occasionally be considered for funding where:

- a detailed development budget is provided
- an established producer/production company and broadcaster or distributor are attached and contributing a substantive share of finance for the project’s development, and/or
- the project has broadcaster or distributor interest with a strong local story and/or could provide opportunities for key ACT creatives.

What is not eligible?

The following types of projects are not eligible for funding:

- games
